Part almanac, part encyclopedia, part dictionary, Nathaniel C. Fowler, Jr. gives us his idea of important, but sometimes obscure, facts that he thinks should be in our bank of general knowledge. He includes a large section on medical emergency and health. Items are arranged in alphabetical order, so there is no logical presentation, but reference is made easy. Or, it is just interesting browsing, and a glimpse into the world of the early twentieth century.

Summary by Larry Wilson
